

Ashutosh Kote

Technology, Delivery & Growth Leader — AI & Cloud Solutions

Hyderabad, India | US B-1 Visa (valid to 2034) | Open to Remote & Relocation
+91 7569513597 | Tosh.linkedin@gmail.com | linkedin.com/in/ashutoshkote-57693094

PROFESSIONAL SUMMARY

Technology and delivery leader with a decade scaling enterprise data, AI, and cloud programmes, with deep and current focus on US healthcare. Leads healthcare data modernisation and Master Data Management across payer and provider domains: patient and member 360, data quality, HEDIS, and trusted golden records (Profisee) on Azure Medallion architectures. Has grown delivery organisations from single digits to 47, owned multi-million-dollar healthcare portfolios with 100% on-time execution, and partnered with CXOs to turn governed data into real-time decisions, complemented by hands-on modern data engineering (Kafka and Spark streaming, MLflow model lifecycle).

CORE SKILLS

Healthcare, Supply Chain & Logistics: Payer & Provider, Patient 360, Consumer 360, HEDIS, Data Quality, Master Data Management (MDM), Data Engineering, Supply Chain Planning (Infor APS, JDA), Real-Time Transportation Visibility, Logistics Data Systems, B2B SaaS

AI / ML & MLOps: Production ML Deployment, ETA Prediction, NLP, MLflow (Tracking, Registry, Lifecycle), Data-Drift Monitoring, Champion/Challenger Retraining, Model Serving

Data & Streaming: Apache Kafka, Spark Structured Streaming, Delta Lake, Medallion Architecture, Real-Time & Event-Driven Pipelines, Azure (ADLS, Data Factory, Databricks, Fabric, Purview), Profisee

Engineering: System & Data Architecture, FastAPI, Distributed Systems, Geospatial Processing, CI/CD, Docker, Agile / SDLC

Leadership: Engineering Org Scaling (0 to 47), Programme & Delivery Management, Stakeholder & CXO Engagement, Hiring & Mentoring, Cross-Cultural Teams

PROFESSIONAL EXPERIENCE

SDSol.ai (SD Solution)

Hyderabad, India · Jan 2025 – Present

Director, AI & Cloud Solutions

- Led end-to-end delivery of 7 concurrent Azure enterprise programmes spanning data platforms, AI initiatives, and modern cloud architectures (Azure, Microsoft Fabric, Databricks).
- Scaled the delivery organisation from 3 to 40+ professionals across India and the US, building a high-performance, globally distributed execution model.
- Managed a \$7M+ client portfolio, including a major US healthcare enterprise, with 100% on-time execution across all parallel programmes.
- Delivered enterprise Master Data Management with Profisee, governing patient and member domains into trusted golden records with robust matching, data quality, and stewardship.
- Owned data modernisation on Azure (ADLS, Data Factory, Databricks, CI/CD) using Medallion Architecture; acted as primary client-facing delivery lead driving programme governance.

8th Element AI

Hyderabad, India · Oct 2022 – Dec 2024

Engineering & Delivery Head

- Scaled the team from 2 to 47 professionals across India and the US, building a delivery engine from the ground up as part of the core leadership team.
- Managed a \$5M+ portfolio spanning a US healthcare giant and an Off-Duty Management platform, driving value-based outcomes tied to measurable client impact.
- Architected Azure data modernisation (ADLS, ADF, Medallion Architecture) and a business/analytical layer enabling CXOs to make real-time, data-driven decisions at scale.

- Established Master Data Management across patient and member domains (Profisee), embedding data quality and governance to deliver a single, trusted source of master data.

PipalTree.AI

Hyderabad, India · Mar 2021 – Mar 2023

Product Manager / Machine Learning Engineer

- Defined product strategy and roadmap for 3 major products; engaged client CXOs to customise, architect, and deploy robust solutions to business needs.
- Built, trained, and deployed ML-driven conversational engines on Google Cloud (NLP, Python, Flask), owning model development and relevant UI/UX.

Infosys

Hyderabad, India · Feb 2017 – Feb 2021

Technology Analyst / Senior System Engineer / System Engineer

- Offshore lead for Infor Advanced Planning & Scheduling and JDA Space Planning for a market-leading US enterprise on an application support and enhancement programme.
- Drove design artefacts, code reviews, defect resolution, and process optimisation; coordinated end-to-end across clients, business leads, and product vendors.

Bigbluemarble

Hyderabad, India · Feb 2019 – Dec 2024

Co-Founder

- Co-founded an eco-conscious, zero single-use-plastic consumer brand operating across India and Australia; selected for the 2021 iLab Accelerator Program (UQ Ventures, University of Queensland).
- Led brand strategy, product development, and operations across both markets.

EDUCATION

B.E. Mechanical Engineering — Osmania University, Hyderabad, India, 2012–2016
